

GT6000 | Standard Accessory List

GAS-APP-003 Extended CEM application library : Inclusive of 16 gases as detailed in Gasmeter document, GAS-APP-003. Customer to select one measurement range for each of the 16 gases from lowest to highest available ranges.

GAS-REF-000 GAS-REF-000

Non-instrument specific gas references (10) chosen from the Gasmeter component library. Additional gases available at \$233/gas.

SAM-SYS-600 PSS Plus Portable Sampling System:

- Rugged powder coated steel enclosure (35 lbs)
- IP42 ingress protection
- Integrated oxygen sensor (zirconium, 0.1-25% range)
- Zero gas flow display for high repeatability between measurements
- Instrument air flow display for efficient purge & maintenance
- 2 micron sample particulate filter (PTFE, heated)
- Internal pump, filter, sample lines controlled at 180°C
- 6 mm compression connections for zero gas, instrument air, sample in & out
- Sample in/out connections with bracket and straps for strain relief
- PSS Base controlled through GT6000 and Calcmet software (v 14.xx)
- 115 VAC power

Includes: PSS Plus, heated sample filter, heated sample line between PSS and GT6000, insulator rings for sample lines, communication cable, and installation & operation manual

LIN-1M-115IN Heated line 1 m, max 200°C, interchangeable 1/4" PTFE core, 120 W/m with Binder 7-pin-plug, K-type. Heated Line between PSS and GT6000

LIN-BP-PLUG Base price for bulkhead connectors at each end of heated sample line connecting from PSS to Sample Probe, max 200°C, interchangeable core, 120 W/m, K-type, with Binder 7-pin-plug (10A). (Purchased in conjunction with PLI-115-004 below)

PLI-115-004 Heated sample line connecting from PSS to Sample Probe , 1/4" PTFE core, & span line, K-type, price/m (always together with LIN-BP-PLUG below). Total length of heated line quoted is 5m or 16.5ft. (The maximum length available for 115V power is 9 m or 30ft)

PRP-115-002 Portable sample probe PSP4000-H/C, 115V, with calibration gas inlet

SAM-M&C- PTFE-filter and gasket set for M&C PSP 4000H probe

GAS-SW-600 Calcmet Expert HASP key. Permits operation of Calcmet Software Expert Version with GT6000 Mobilis. Key is paired to an analyzer by serial number.

GAS-SW-501 Calcmet Expert HASP spare key for GAS-SW-500

GAS-OPT-610 Wheeled hard transport case for GT6000 Mobilis
