

# FOS 79710

## Fiber Optic Switch Module

### Product Overview

Typical applications include routing a signal around the device under test (DUT) for a reference measurement, sequential switching of the test signal to numerous DUTs, or testing a single DUT at sequentially switched wavelengths.

### Multi-channel Flexibility

Through the FOM-7900B System Mainframe, FOM-79710 modules can be controlled via an intuitive front panel, or by a state-of-the-art GPIB/IEEE-488.2 interface. This interface uses the National Instruments TNT 488® chip-set,

supporting high-speed GPIB protocol — allowing you to control up to 200 source modules from a single GPIB address.

### The First Name in Fiber Optic Test

Today's largest world-leading fiber optic component manufacturers are testing with more laser sources from ILX Lightwave than from any other company. There are good reasons for this. You tap into the experience built on this large installed base when you choose ILX Lightwave for your test system.

### Specifications

#### GENERAL

Configuration:	1x4
Wavelength Range:	1280–1650 nm
Fiber Type:	9/125, SMF 28
Connector Type: <sup>1</sup>	FC/APC
Insertion Loss <sup>2</sup>	
Typical:	1.2 dB
Maximum: <sup>3</sup>	1.7 dB
Crosstalk:	<-80 dB
Polarization Dependent Loss: <sup>4</sup>	<0.05 dB
Repeatability: <sup>5</sup>	<0.03 dB
Switching Time: <sup>6</sup>	16 ms/channel +300 ms (maximum)
Maximum Continuous Input Power:	+24 dBm
Return Loss:	>55 dB
Switch Life:	>10 million cycles
Operating Temperature:	15°C–35°C
Storage Temperature:	-20°C to 70°C
Operating Humidity:	<85% RH, non-condensing

#### NOTES

- 1 Other connector options available upon request.
- 2 Measured at 23°C ±5°C.
- 3 Maximum insertion loss, any module output port.
- 4 Measured at 1550 nm.
- 5 Sequential switching, 100 cycles measured at constant temperature after module warmup.
- 6 Excluding GPIB and mainframe processor latency.

In keeping with our commitment to continuous improvement, ILX Lightwave reserves the right to change specifications without notice and without liability for such changes.
